Student Body Clubs

Student Body Clubs can enhance the interest, connection and support of our school. The Associated Student Body is the umbrella organization that works with clubs. Clubs and Graduating classes must have a faculty sponsor and follow procedures as printed in the Student Body Policies & Procedures Handbook (click on the link to open the pages pertaining to clubs and classes). In addition to these stated procedures, the following guidelines for Sutter's Clubs will provide consistent and equitable support to all students:

- Clubs will meet after school to allow for all currently enrolled students to participate and benefit.
- Clubs conducting any fundraising must do so outside of the normal school hours, clubs may not sell items during the school day and must follow student body procedures.
- Clubs will post all flyers, announcements and advertisements in the current designated areas of inside and outside the cafeteria and student store areas.
- Clubs welcome outside speakers and guests, please obtain prior approval from the Principal.
- Clubs have access to making public announcements and submitting information to the Gazette by completing the announcement form in the main office and receiving prior approval by the Administrator supervising clubs.
- Club sponsors will take into consideration the age of our students and insure that topics and activities are age appropriate.
